

# EDEN

## Furniture by Sebastian Menschhorn for rauminhalt

02.06.2016 – 25.06.2016

---

The exhibition „Eden“ presents from 02.06.2016 to 25.06.2016 exclusive furniture by the Viennese Designer Sebastian Menschhorn designed for the gallery rauminhalt.

The furniture objects by the designer Sebastian Menschhorn form a combination of close to nature elements and everyday culture. In the unspoilt nature of the garden Eden both were co-existing side by side just like lions and lambs. They even determine themselves mutually: one thing emerges on the base of the other. In Menschhorn's work the rough wild-grown and living nature transforms to straight and constructed artificial objects. Out of the oak logs with their rough bark grow soft rounded table plates with coloured glass on top, creating the impression of lakes reflecting the sky.
